AZMOL MIAH

Address: 27 Barton street, Oldham, OL1 2NR   **Phone:** 07487571159
Git-Hub: github.com/azmolmiah   **Website:** azmolmiah.co.uk

Introduction

A passionate, outgoing individual that enjoys expressing himself through software and feeling the sense of achievement by making life easier through computing. Enjoys writing web apps in Javascript (ES6) using React, Context, Redux, Gatsby with CMS's such as Contentful and WordPress. Loves creating stack websites with the Mongo, Express, Node.js and a version with Django and Python. Just finished Codenation Develop course.

Education

- **Oldham College** - Art & Design Diploma   **Sept 2010 - June 2011**
- **Oldham Sixth Form College -** A Levels x3 + Key Skills I.T. level 2   **Sept 2007 - June 2009**
- **Grange School Oldham -** GCSE x8   **Sept 2002 - June 2007**

Employment

Codenation - https://azmolmiahcodenation.netlify.app/ - Bootcamp Develop Course   **2020**
- Created text based game with Python for the terminal
- Created personal website and submitted to TLM with HTML and CSS only.

Siddaco - https://modhubon.com/webapp-php-live/#/menu - Online takeaway system   **2019 - 2020**
- Used React and Material UI to redesign the front end
- Used the API efficiently with Redux state management and structure to fix excessive API calls
- Designed for print and web using Adobe Illustrator and Photoshop

Arabic Footsteps - https://www.arabicfootsteps.com/ - CMS website   **2019**
- Used React, Gatsby and Material UI to design the front end
- Used Wordpress as a back-end

My Projects

Arabic Alphabet Web Application v1, v2, v3(React)   **2018 - 2019**
- Developed in Javascript - Allows users to learn the Arabic alphabet using interactive buttons that play the sounds of the various letters
- Navigate between pages using pagination
- Bookmark pages
- V1 is employing vanilla Javascript. V2 is using a modular pattern and V3 is a react version

Salafi Directory Backend API   **2018 - 2019**
- Django, Postgres, Bootstrap and Digital Ocean
- Directory website for Islamic education and organisations
- Also, made a version in MongoDB, Express and NodeJS
- https://salafi.directory
